THE CANADIAN MEDICAL WEEK IN HAMILTON

**A Combined Meeting
of the**

**ONTARIO HEALTH OFFICERS ASSOCIATION
CANADIAN PUBLIC HEALTH ASSOCIATION
CANADIAN ASSOCIATION FOR THE PREVENTION OF TUBERCULOSIS
ONTARIO MEDICAL ASSOCIATION
CANADIAN MEDICAL ASSOCIATION**

Every person into whose hands this Booklet comes is a Patriot. Many of us are not in khaki; the reasons that keep us comfortably in Canada, while our country calls, are various. Although the reasons of each satisfy his own conscience, they will not excuse him from devoted patriotic effort at home. It is our duty to study our own Problems. Be prepared to carry on.

**Place of Meeting
The Royal Connaught Hotel**

Preliminary Programme and Hand Book of Information

MAY 27th—JUNE 1st, 1918

LIST OF OFFICERS

THE ONTARIO HEALTH OFFICERS' ASSOCIATION.

President, Capt. H. W. Hill, London.

Secretary, Lt.-Col. J. W. S. McCullough, Toronto.

THE CANADIAN PUBLIC HEALTH ASSOCIATION.

VIEW OF HAMILTON CENTRAL DISTRICT.

ON TO HAMILTON

The Mayor, City Officials and Public generally, will welcome to our City, the Visiting Members of the Medical Profession and their friends in this great Congress Week. They trust your stay will be profitable from a Scientific point of view and that your comfort and pleasure will encourage you to return at some future date, to learn something more of our beautiful City.

Nestling in the heart of the Garden of Canada, Hamilton can boast of its most favourable geographical location and beautiful surroundings. It is known far and wide as the Industrial City, by reason of fact that with the population of approximately 110,000, it operates nearly 500 industries.

Located on the shores of Hamilton Bay, a landlocked harbour at the head of Lake Ontario, it has outgrown its original boundaries to the south, east and west and now extends well up on to the height of land to the south, which the citizens are proud to call a Mountain. Easterly it reaches into the richest fruit and produce garden of which Ontario boasts and westerly almost to the outskirts of the neighbouring town of Dundas.

Travel where you will, you will not find a more beautiful panoramic view or nature picture than the birdseye view one gets from the brow of the Hamilton mountain, which rises to a height of about 300 feet. In the immediate foreground is the bustling city, rich in foliage at this season of the year; to the right is the Niagara fruit belt, to the left the beautiful Dundas valley and in the background the peaceful water of Hamilton bay backed by the blue waters of Lake Ontario. Far in the distance, on a clear day, can be seen the outline of the big buildings in Toronto, something more than 40 miles away.

With electric railway lines running out in all directions and boat lines connecting with the north shore of the bay, Toronto, Grimsby, Niagara and other points of interest, little wonder that Hamilton is rapidly becoming a tourists' and convention city, as it has long been an industrial centre. Large enough to be interesting it is still small enough to be sociable and the stranger within its gates is assured of a hearty welcome and a good time.

At the head of the Bay the motorist drives along the crest of a sand bar formation known as Iroquois Beach, a relic of pre-glacial times. As one looks to the west the banks of a one time great river are plainly seen and geologists tell us that at some spot not definitely located the

ON TO HAMILTON

waters from the North and South met and mingled. This geological secret has aroused the interest of the scientists of two Hemispheres.

Hamilton and the surrounding country abound in spots of historic interest, foremost of which is the Stoney Creek battle-field, accessible by motor or electric car. The Dundurn ridge is another spot that has found its place in history, while many interesting ruins of the early settlers' days are to be found at and about Ancaster, situated on the mountain brow about six miles distant from the centre of the city and also reachable by motor or electric car. Another electric line will take the sightseer to Burlington Beach, a narrow stretch of land that separates the lake from the bay and the popular summer resort of the citizens. A drive along the Toronto-Hamilton highway gives one an idea of the beauty of the surrounding country and the general prosperity of the whole district while a visit to the city's fine parks is a delight to the lovers of nature.

STONEY CREEK MONUMENT.

HAMILTON MARKET.

THE PREVAILING SENTIMENT

Soon after the close of the meeting of the Ontario Medical Association last year, the newly elected officers began to look about and prepare plans for the coming meeting. It was proposed the other Associations should be invited to co-operate and soon it became evident that it was our duty in the interests of War Time Efficiency to conserve and concentrate the energies of the Canadian Medical Profession.

At no time in the history of Medicine in Canada was the complete organization of the Profession more necessary. We must be prepared to serve the public in these strenuous times to the limit of efficiency. Great sacrifices are necessary on the part of all. We must understand the problems and be prepared to meet them.

THE SPIRIT OF CO-OPERATION

One of the most striking and most gratifying features of the Medical Week is the whole hearted unanimity with which the various organization have pledged their co-operation.

The numerous meetings of the General Committee on Arrangements have been attended by members representing the Canadian Medical Association, the Canadian Public Health Association and the Health Officers Association, many of whom have repeatedly travelled long distances to be present and share in the discussion of the necessary preparations.

The Committee is confident that this enthusiasm must pervade the whole Meeting, and that the spirit of fraternal co-operation, so evident from the outset, will continue to animate the Profession long after the Convention has become a memory.

In the preparation of the Programme the utmost care has been exercised to assign to each body represented sufficient time for the discussion of subjects peculiarly its own, and to avoid the duplication of papers or the repetition of any section of subjects which may have been discussed in another.

The number of topics, the high standard of excellence of the papers to be presented, and the facilities afforded for thorough discussion should ensure the attendance of the Medical Profession at its maximum and that this Congress in Hamilton will occupy a permanent place in the annals of Canadian Medicine.

APPEAL TO COUNTY SOCIETIES

For the first time in the history of the Ontario Medical Association, The County Medical Societies are this year afforded an opportunity of exercising a degree of influence commensurate with their importance. Under the new Constitution and By-Laws of the Ontario Medical Association the County Society is recognized as the basic element of the Association.

The Committee of General Purposes, as the legislative body of the Association is constituted of representatives elected from the County Societies, in proportion to their membership. This plan has undergone the test of experience in the American Medical Association and reflects the growing spirit of democracy.

The Committee in charge hopes for a large representation of the Profession outside the cities for this is necessary to prove and support the main idea underlying our new Constitution and By-Laws.

SCIENTIFIC PROGRAMME

The Programme for Sections

AN APPEAL FOR DISCUSSIONS.

The Committee on Programme have pursued a policy as far as it was possible of bringing here our brethren to the south of us to give many of the papers, and are asking that the men on this side of the line supply the discussion. As is well known the usefulness and effectiveness of any paper no matter how excellent it may be, is seriously impaired by the absence of critical discussion, the latter is really of more importance. Not only then from the standpoint of importance, but also from the spirit of courtesy and hospitality, the committee confidently hope that our members will volunteer cheerfully to assist in the Programme, and show by their interest, the appreciation we all feel of the presence of the men who have come (many at great personal inconvenience) to help make this a record meeting.

Synopsis of paper will be sent to all of those who make application.

THE SECTION IN MEDICINE.

"Modern Methods in Diagnosis of Nephritis"—W. G. Lyle, New York.

"A Clinical Study and Treatment of Bronchial Asthma"—I. Chandler Walker, Boston.

"The Prevention of War Neuroses (Shell Shock)"—Thaddeus Hoyt Ames, New York.

"The Pneumonia of Military Camps"—W. G. McCallum, Baltimore.

"Psychological Analysis"—Beatrice M. Hinkle, New York.

"Some Problems of Low Blood Pressure"—Thomas McCrae, Philadelphia.

"Chorea"—Alan Brown and George Smith, Toronto.

THE SECTION ON SURGERY.

"Surgery of Colon"—E. McGuire, Buffalo.

"Radical Operation for Cancer of the Breast"—D. Guthrie, Sayre, Pa.

"Fractures of the Hip"—M. S. Henderson, Rochester, Minn.

"Carrel-Dakin Treatment of Wounds and Paraffin Wax Treatment of Burns"—William O'Neil Sherman, Pittsburg.

"The Training of the Surgeon"—Jasper Halpenny, Winnipeg.

"Observations on Post Operative Management of Abdominal Cases"—W. R. Thomson, Warsaw, N.Y.

(Title to be announced)—E. R. Secord, Brantford.

"The Treatment of Compound Fractures of the Humerus"—George Ewart Wilson.

WHAT BAKING POWDER IS.

Baking Powder is not a food, but it is a preparer of food. A great many people through misleading advertisements, have been led to believe that they eat Baking Powder but this is not the case.

Baking Powder is put in the food, not to be part of it, like flour, but simply as a convenient means of making breads, cakes and biscuits light and sweet; in fact it is used only for the leavening gas it produces. When you mix certain substances under proper conditions, they combine and through what chemists call a reaction, change their nature entirely. This is especially true of all mixtures giving off leavening gas in which it is found, the substance left is in no way like the substance put into the mixture. In Baking Powders this is always the case and the part left in the food, the part you eat, is entirely different from any of the original ingredients.

Be sure that you get a Baking Powder that is not only pure in the Can but pure in the Baking. Egg-O is guaranteed to be absolutely pure in both.

The EGG-O BAKING POWDER COMPANY, Limited, HAMILTON, Ont.

SCIENTIFIC PROGRAMME

The Programme for Sections

THE SECTION ON OBSTETRICS.

- "Normal Labor"—Irving W. Potter, Buffalo, N.Y.
- "Practical Infant Feeding for the General Practitioner"—Douglas Arnold, Buffalo, N.Y.

SCIENTIFIC EXHIBITS

Attention of members of various Associations taking part is drawn to the fact that there will be a most interesting collection of scientific exhibits.

All material illustrative of papers being presented in the various sections or in the general meetings, will be placed on exhibition and withdrawn for use during the reading and discussion of papers.

MUSEUM SECTION.

There will be a Pathological Exhibit of Museum Specimens in the personal charge of Maud E. Abbott of Montreal. This will include among special features a large exhibit of specimens from the National War Museum of Canada shown by special permission of Surgeon-General Fotheringham. An exhibit from the Babies' Hospital, New York, showing a number of specimens illustrating pneumonia in children will also include pathological material illustrative of papers being read in various sections.

CLINICAL LABORATORY SECTION.

There will be a series of demonstrations of clinical laboratory procedures. This is of special interest to the general Profession, such as public health diagnostic tests, syphilis bacteriology, pathology and serology; alveolar air, kidney pathology and function, blood grouping and transfusion, frozen section technique for surgical pathology and other procedures.

THE X-RAY SECTION.

An exhibit of X-ray plates will be shown in a large room set aside for the purpose and equipped with efficient illuminating boxes. A good projection lantern is provided for the demonstration of lantern slide reductions from plates. Invitations are being sent to the men throughout the country, doing X-ray work, asking them to send any plates of unusual interest which will be placed on display. An informal demonstration of this kind will be made daily. A number of plates illustrating papers being read in various sections will be on exhibition in this room.

There will be an exhibit of some of the newer apparatus developed during the past year for the use of the American army at the front, in the way of portable field apparatus and instruments for precise localization of foreign bodies.

MOVING PICTURE SECTION.

Moving pictures on medical and surgical subjects will be shown daily, between four and six p.m. in a convenient lecture hall. The subjects of these films will be such as to interest particularly the general practitioner and will deal more especially with the surgical aspects of conditions resulting from the war.

MISCELLANEOUS.

A number of posters illustrating the work carried on by the Canadian Association for the Prevention of Tuberculosis will be shown.

There will be a display of charts, illustrations, and literature, from the Propaganda Department of the American Medical Association. In connection with this there will also be a continuous lantern demonstration of slides illustrating the work carried on by this Association.

All material illustrative of papers being presented in the various sections or in the general meetings, will be placed on exhibition and withdrawn for use during the reading and discussion of the papers.

In connection with the Returned Soldier problem, a number of the methods illustrating the re-education of the returned men will be demonstrated.

Members are cordially invited to send material illustrating papers or other specimens of interest to any Association participating in this Congress. Parcels should be in the hands of the Committee not later than May 25th.

Address parcels to, Committee on Scientific Exhibit, Canadian Medical Week in Hamilton, Royal Connaught Hotel, Hamilton.

SPECIAL NOTICE

The members are invited to attend the Child Welfare Exhibition which is being put on by the Child Welfare of Greater Hamilton. This Exhibition will be placed in the I.O.O.F. Temple, Gore Street, and will contain a large amount of material from the Provincial Board of Health in addition to other features of special local interest. It is expected that there will be a Model Baby Clinic each afternoon from four to six o'clock.

Hamilton is the first city in Canada to put on a real Baby Week and as this is our fourth year we expect to have something worth while.

SPECIAL ENTERTAINMENT

At this large Congress of Canadian Medical Associations the main consideration will be the presentation of the Scientific Programme. The Local Committee wish to announce that with due respect to War conditions, the usual Banquet will not be held this year.

In place of this, four informal Table d'Hôte Dinners will, on Monday, Tuesday, Thursday and Friday, be served in the Large Assembly Hall at 6.30 p.m. Immediately following each Dinner, the "Address of the Evening" will be given.

On Wednesday afternoon the members have been invited to proceed to the Mountain Sanatorium where High Tea will be served. Ample opportunity will be given to inspect the Buildings, Plant and Grounds at this Institution.

It has been suggested that the Thursday Dinner be especially assigned to Class Reunion and Sectional Dinners. Those who are interested in either of those should correspond with the Local Committee without delay. Accommodation can be had for a few of these in private dining-rooms. It will be necessary to arrange for others by assigning tables to these in the large Assembly Hall.

On Friday Evening a Snorking Concert will follow the Scientific Programme.

On Saturday at 1 p.m. at the close of the Clinic at the Hotel, the Members will be taken by motor to the New Hospital on the Mountain, when through the courtesy of the Board of Governors of the City Hospitals the Members will be entertained at Luncheon.

The Sub-committee on Entertainment would like to hear from any who would agree to assist in the organization of a Convention Choir. Those who are in the habit of assisting in such choral work or any others who think they can sing should communicate with Dr. F. E. McLoghlin, 452 Main Street East, without delay, who will supply them with song sheet and other details. Any members who know of any who should be invited to assist by contributing instrumental music will please co-operate.

The Local Committee would appreciate any information which would enable them to estimate the number of ladies who would be present in order that suitable arrangements could be made for their entertainment.

HOTELS

The headquarters for the Canadian Medical Week are in the Royal Connaught Hotel which has placed ample accommodation at our disposal for the Meeting. Rates in this Hotel run from \$1.50 to \$3.50 per day (European).

The following hotels are in close proximity to the headquarters: Wentworth Arms, Hughson St., Cor. Main St., \$1.50 to \$3.50 (European); Stroud, Cor. McNab and Merrick Sts., \$2.50 to \$3.50 (American); King George, Cor. McNab and Market Sts., \$1.00 up (European); New Commercial, 51 York St., \$1.25 to \$3.00 (European); Hanrahan, 92 Barton St. E., \$2.00 (American); Terminal Hotel, King St. E., \$2.50 (American).

The rates quoted in each case are on the assumption that the rooms are used to the full capacity.

We have been assured that there will be no difficulty in billeting all our guests.
